White Had to Defeat Orange Free  
State Troops to Make His Escape  
from Ladysmith—The Two Retreat-  
ing Generals Expected to Make a  
Juncture Tonight—Great Excite-  
ment in England.

Ladysmith, Oct. 24—[Special Cable-  
gram to the Gazette]—The British  
troops have evacuated Glencoe which is  
now in the hands of the Boers under  
Gen. Joubert.

Gen. Yule feared being cut off from  
his retreat and is falling back for sup-  
port on Gen. White here.

The Boers have been massing around  
Glencoe and expected to take the town  
or die in the attempt. General Yule  
did not wish another battle.

British Wounded Left Behind

Ladysmith, Oct. 24—[Special Cable-  
gram to the Gazette]—The British  
wounded have been left at Dundee, Yule  
trusting to the Boers' consideration in  
their treatment of them. It is believed  
from this that Yule was hard pressed at  
Dundee and Glencoe.

Kruger Will Never Surrender

Cape Town, Oct. 24—[Special Cable-  
gram to the Gazette]—There is no  
truth whatever in the report that Krug-  
er contemplates an early surrender. He  
is said to be at the front directing the  
campaign. The Boers are of the opinion  
that they have had the best of the war  
so far.

Gen. White Abandons Ladysmith

London, Oct. 24—[Special Cablegram  
to the Gazette]—Gen. White fought  
his way out of Ladysmith today, defeat-  
ing a force of Orange Free State troops  
on the road between Ladysmith and  
Newcastle. White aims to join Yule,  
who has fallen back from Glencoe, which  
junction he expects to make tonight.

Cronje May Be Prisoner.

London, Oct. 24—The correspondent  
of the Daily Mail at Durban, Natal,  
says:

"An official of the Bonanza mine, who  
has just returned from Pretoria, declares  
that while there he heard that Colonel  
Baden-Powell, the British commander at  
Mafeking, had captured General Cronje  
and thirty other Boers and had killed  
500."

British Losses in Transvaal War.

London, Oct. 24—An amended list of  
the British casualties at the battle of  
Elandsfontein places the number of  
officers killed at five and wounded  
thirty, and the number of noncommis-  
sioned officers and men killed at 37 and  
wounded at 175, the total number of  
casualties being 247. Two men are  
missing.

Irish May Be Accused of Treason.

London, Oct. 24—[Special Cablegram  
to the Gazette]—The Globe this after-  
noon strongly urges the prosecution of  
the Irish members of parliament for high  
treason on account of expressions of  
sympathy for the Boers.

Loss at Battle of Mafeking

London, Oct. 24—[Special Cablegram  
to the Gazette]—Colonel Baden at  
Mafeking, officially reports the British  
loss in the battle there at two killed and  
fifteen wounded. The Boers had fifty-  
three killed.

Native Africans Join the Boers

London, Oct. 24—[Special Cablegram  
to the Gazette]—A sensational report  
is printed here today to the effect that  
fifteen thousand blacks have joined the  
Boers.

Gen. Yule Reported Safe

London, Oct. 24—[Special Cablegram  
to the Gazette]—In the house of com-  
mons this afternoon the parliamentary  
war secretary announced that General  
Wolsely, in summing up today's situa-  
tion in Natal, reports that General Yule  
yesterday fell back from Glencoe to ef-  
fect a junction with General White and  
encamped last night sixteen miles south  
of Dundee without seeing the enemy.  
He has since been reported safe at  
Waschbank river.

Continuing to read Wolsely's reports  
the secretary said that Gen. White, to-  
day, advanced from Ladysmith and

defeated a force of Orange Free State  
troops on the road between Ladysmith  
and New Castle. He expected to join  
Yule this evening. The Boers wounded  
are being treated the same as the En-  
glish and it is believed the Boers will  
reciprocate if opportunity offers.

The report of the commander-in-chief  
was greeted with cheers. While much  
anxiety prevails as to events that led up  
to the evacuation of Glencoe the fact  
that White is forcing his way through  
to Yule's relief is regarded as a distinct  
achievement.

No European Intervention

Paris, Oct. 24—[Special Cablegram  
to the Gazette]—Stories of European  
intervention in the Transvaal war are  
discredited here. The Figaro says the  
Boers made a mistake in declaring war,  
when they should have conceded what  
England demanded. Intervention, the  
paper says is unlikely as Russia,  
Germany and France are otherwise oc-  
cupied.

SAYS THE BRITISH ARE DEFEATED

Paris Newspaper Contradicts British  
Transvaal War News

Paris, Oct. 24—A sensational dispatch  
in the Temps asserts that a serious En-  
glish defeat is the result of the second  
attack on Glencoe by the Boers, and  
that the losses are so great that the  
English war office is holding back the  
news until a victory somewhere else  
will make it more acceptable to the pub-  
lic.

According to the Temps' correspond-  
ent, the Elandsfontein affair resulted in  
drawing off Sir George White's forces  
and occupying them while the two other  
columns of Boers under General Joubert  
operated against Glencoe.

GREAT ANXIETY IN ENGLAND

Situation of Troops in Transvaal Now  
Said to Be Serious

London, Oct. 24—The British mili-  
tary situation in Natal is now exceed-  
ingly grave, and the latest rumor in the  
lobby of the House of Commons is that  
General Yule had decided to attempt to  
fall back on Ladysmith if the railway  
between Glencoe and that place can be  
secured, which is doubtful.

Otherwise, the Boer armies now con-  
verging on Yule's force from the Trans-  
vaal and the Orange Free State, num-  
bering, it is said, 11,000 men, will in all  
probability overwhelm Yule's division.  
This bad news occasions a feeling of  
intense anxiety and the intelligence of a  
big disaster is keenly apprehended.

The squadron of hussars and a sec-  
tion of mounted infantry which pur-  
sued the Boers after Glencoe, are still  
missing.

Significance of the British War Prepa-  
rations—Belief That Before the  
Boer War is Ended the Bear Will  
Occupy Herat—John Bull Has an  
Agreement with Germany.

London, Oct. 24—The sailing of the  
channel squadron today for Gibraltar is  
now regarded by keenest observers as an  
indication that some unexpected attack  
upon British interests is possible. The  
magnitude of the preparations for war,  
which are out of all proportion to the  
requirements of the military situation,  
can only be adequately explained on the  
theory that the government has suspec-  
ted that some great power would be  
tempted to seize the opportunity for  
striking a sudden blow or carrying out  
a deeply cherished policy.

The quarter from which an attack of  
this kind may come is unmistakable.  
The Russian Press has been licensed to  
criticise English policy in south Africa  
in a most acrid way, and the rumor  
that Herat may be occupied is already  
in the air.

British commercial interests in Persia  
are so large that a Russian seizure of a  
commanding position in western Afghan-  
istan would be a serious stroke, aimed  
directly against free trade.

That seems a more likely menace  
than the forcing of the Dardanelles by  
the Russian Black Sea fleet.

The movement of a powerful French  
fleet to the Levant coincides with the  
rumor that a Russian advance may be  
resumed in Asia while England is pre-  
occupied with the war in south Africa.

It also fits in with the explanation of  
the secret agreement between England  
and Germany, already referred to in  
previous dispatches. This was that  
England, in return for a free hand in  
South Africa in settling the Transvaal  
question had agreed not to make any  
hostile use of her fleet if the German  
emperor were to decide to follow up his  
visit to Jerusalem with a serious attempt  
to colonize any portion of Asia Minor  
and bring it under German influence.

England and Germany are on most  
cordial terms and the emperor's visit  
next month is plain indication that for  
practical reasons he is reconciled to the  
policy which enables the British govern-  
ment to reconstruct the Dutch republics  
and bring them under the crown auth-  
ority.

England and Germany are acting to-  
gether in the Samoan negotiations, but  
not to the disadvantage of America. In-  
deed, German policy is now directed  
toward the establishment of most cor-  
dial relations with America, as well as  
England. Ex-President Harrison, who  
with his wife, dined last night at the  
House of Commons with Arthur J. Bal-  
four to meet the leaders of the English  
public life, would be a good witness on  
this point, for he was entertained by the  
emperor at Potsdam and by the German  
chancellor in Berlin.

Man Who Made Bigamy a Business Un-  
der Arrest at Chicago

Chicago, Oct. 24—Walter L. Farn-  
sworth, a Chicago candy commission  
man, who has distinguished himself by  
making at least nine matrimonial ven-  
tures under various names, was arrested  
last evening on a warrant sworn out by  
Mrs. Callie Peppinger Bradshaw of 291  
Wabash avenue, one of his wives. She  
and Mrs. Sarah Mears Farnsworth of  
317 West Madison street, another vic-  
tim of the guile of the confessed biga-  
mist, or rather, polygamist, visited the  
police station together and identified  
the prisoner who had wooed them to ob-  
tain their few hundred dollars, and after  
marriage had hastened to leave them in  
search of other victims.

The exact number of wives Farn-  
sworth has is indefinite. The names of  
four have been given to the police, who  
expect that when the reports are all in  
they may reach the dozen mark.

In all but one of the instances report-  
ed the objects of Farnsworth's atten-  
tions were widows whom he supposed  
to have some wealth. According to the  
former Mrs. Mears, whose story is cor-  
roborated by her who was Mrs. Pippin-  
ger, he was successful in wheedling sub-  
stantial sums from every one of the  
duped women.

Great Northern Railway Employees Send  
In a Final Ultimatum.

Minneapolis, Minn., Oct. 24—The  
Great Northern Grievance committee,  
which have been in session for ten days,  
met again this morning, and it is un-  
derstood that they formulated an ul-  
timatum. A report from Willmar, Minn.,  
says that the recent discharge of the  
chairman of one of the committees  
who was yardmaster at one of the  
divisional points has embittered the  
men. The bonding system and the use  
of "spotters" are the two main points of  
grievance.

A general strike is considered as be-  
ing certain to follow the ultimatum.

BARABOO THREATENED.

Farmers Have Asked for Help to Check  
the Flames—Trial of Rev. Jacob  
Van Doren in Milwaukee—Rich Cop-  
per Mine Discovered—Gompers to  
Visit Milwaukee November 10.

Baraboo, Wis., Oct. 24—Extensive  
forest fires are raging on the bluffs  
south of this city, consuming fences and  
wood. Many homes are threatened.  
Help has been summoned from this city.  
The residents are out in force fighting  
the fire, and there is great alarm.

The woods on the bluffs between here  
and Sack City are ablaze and hundreds  
of cords of stove wood have been  
burned. Farmers are out in force  
fighting the fire, but it is beyond con-  
trol and there is no telling where it will  
end.

Several hunters' cabins were destroyed  
and several farm houses and barns  
barely escaped. The wind is blowing  
and deer are fleeing in all directions to  
escape the flames.

TRIAL OF REV. JACOB VAN DOREN

Brought in the Name of the Presbyterian  
Church of the U. S.

Milwaukee, Wis., Oct. 24—The trial  
of the Rev. Jacob D. Van Doren of Fond  
du Lac on a charge of maligning the  
characters of his ministerial brethren  
of the Milwaukee presbytery began in  
this city today. The case is of national  
interest for the reason that the charges  
have been brought in the name of the  
Presbyterian church of the United  
States.

The trial is being held in the minis-  
ters' room of the Y. M. C. A. building.  
The Rev. E. A. Cutler, moderator of the  
Milwaukee presbytery, is presiding. The  
prosecution committee, composed of the  
Rev. T. W. F. Roth of Cedar Grove, the  
Rev. T. S. Johnson of Beaver Dam, and  
Elder Samuel McComb of Milwaukee,  
will present testimony in support of  
their charges. The accused will then  
be given an opportunity to give his side  
of the case, which, it is said, he will do  
after entering a plea of not guilty.

Mr. Van Doren sent out a printed cir-  
cular making an attack on his brethren  
for alleged failure to keep promises,  
using very strong language. Four  
formal charges are made against the  
Rev. Mr. Van Doren.

Rich Copper Vein Discovered.

Ashland, Wis., Oct. 24—The discov-  
ery of a rich copper vein in Gogebic  
county, near the Wisconsin border, and  
the knowledge that it extends into Iron  
and Ashland counties, has brought the  
attention of copper experts to this re-  
gion, and already land has been bought  
up. A company for the development of  
the copper field discovered in Gogebic  
county was formed last week with a  
capital stock of \$2,500,000. It is called  
the Peak Mining company.

Rev. E. C. Preston Will Resign.

Whitewater, Wis., Oct. 24—The Rev.  
E. C. Preston, pastor of the Congrega-  
tional church for three years, has an-  
nounced that next Sunday will close his  
pastorate here. The majority by which  
the pastor was reelected at the annual  
meeting three weeks ago was small, and  
he thought that under the circumstances  
he could do better work elsewhere. He  
has a call to Osage, Ill.

Woman Takes Out Hunter's License.

Monroe, Wis., Oct. 24—Miss Ida Nor-  
der of Sylvester, aged nineteen years, is  
the first woman in Green county to take  
out a hunter's license. She applied to-  
day, and will go with her father and  
brother next week to hunt deer.

Gompers Will Visit Milwaukee.

Milwaukee, Oct. 24—President Sam-  
uel Gompers has named Nov. 10 as the  
date upon which he will be in Milwau-  
kee and address a meeting of union men  
on the labor troubles that have arisen  
between the coopers and the Pabst  
brewing people. Mr. Gompers has also  
asked Secretary Cable of the Coopers'  
International union to meet him in Mil-  
waukee at the same time to assist in  
adjusting existing differences.

Meeting of Woman's Board of Missions.

Madison, Wis., Oct. 24—About 200  
delegates are expected to attend the  
meeting of the Woman's Board of Mis-  
sion of the Interior here, in which fif-  
teen states are represented. The exer-  
cises which will be held in the Congre-  
gational church, begin this afternoon at  
2 o'clock with a meeting of branch  
officers and the executive committee.

PRICE OF BROOMS ADVANCED

Broomcorn Has Been Cornered and a  
Trust Has Been Formed.

Milwaukee, Oct. 24—Broomcorn has  
been cornered, and as a result the price  
of brooms has been advanced by all Mil-  
waukee manufacturers.

Local broom manufacturers held a  
meeting on Saturday evening at the  
office of Herman Kurth, Eleventh and  
Lee streets, and it was decided that  
owing to the formation of the Broom-  
corn Growers' trust and the rise in the  
price of the raw material an advance in  
the price of brooms be made after today.  
The advance in the prices of brooms will  
be 75 cents a dozen at the present time  
and if the corn prices go upward again,  
a corresponding advance will be made in  
the price of brooms.

## PLANS FOR ACTIVE CAMPAIGN

Vigorous Operations of War All Along  
the Lines in the Philippines

Washington, Oct. 24—Secretary Root  
hopes the campaign in the Philippines  
may be opened all along the line within  
the next three or four weeks. Although  
there have been some military opera-  
tions recently, he says the campaign is  
not fairly on yet. General Lawton has  
been sent north to occupy San Isidro  
because of its strategic importance, but  
this is only preliminary to the real cam-  
paign.

Most of the other recent engagements  
are likened to the action of a man in  
brushing away pestiferous insects that  
are annoying rather than dangerous.

Secretary Root has been informed  
that the rainy season is about over, but  
the country is still suffering from its  
saturation. There are many inunda-  
tions, and the soil generally is so soft as  
to make military movements exceedingly  
difficult.

Army officers vary from three to six  
weeks in their estimates of the length of  
time it will take for the country to dry  
sufficiently for the American forces to  
move with reasonable facility.

HOLY SPIRIT NOT RECOGNIZED

Universalist Church Adopts a New Plat-  
form of Principles at Boston.

Boston, Oct. 24—By almost unani-  
mous vote the biennial convention of the  
Universalist church last night ratified  
and adopted the so-called Chicago plat-  
form of principles in amendment to the  
creed of the church by which the Uni-  
versalist body gives up the Winchester  
confession of faith adopted by it in  
1803.

The vote for the adoption was a sur-  
prise, being 132 to 10.

The Chicago declaration is as follows:  
"The essential principles of the Uni-  
versalist faith are:

"The universal fatherhood of God.  
"The spiritual authority and leader-  
ship of His son, Jesus Christ.

"The trustworthiness of the Bible as  
containing a revelation from God.

"A certainty of retribution for sin.

"The final harmony of all souls with  
God."

"Nearly all of those who voted 'no'  
stated their objections briefly, and the  
principal objection seemed to be that the  
holy spirit is not recognized.

DR. MAY REID'S ODD COSTUME

Racine Woman's Attire Attracts Much  
Attention on the Streets.

Racine, Wis., Oct. 24—Dr. May Reid  
of this city (said to be a cousin of  
Whitlaw Reid of the New York Trib-  
une) who, it is alleged, recently fell heir  
to \$500,000 through the death of an  
aunt in the East, recently astonished the  
feminine portion of the community  
with a new street costume. The cos-  
tume consists of a tight-fitting tailor-  
made skirt which clears the ground by  
two inches, a black waist of heavy ma-  
terial which fits every curve of the figure  
and a high silk hat made to fit the head  
so that hats are no longer necessary.

Black dogskin gloves go with the cos-  
tume and when on the street Mrs. Reid  
carries a slender gold mounted cane. The  
dead black of the whole suit is re-  
lieved by a white collar and tie and a  
dash of white down the front of the  
waist.

COMBINATION IN ZINC ORES

Joplin-Galena Mines Pass Into Hands of  
a Strong Trust

Kansas City, Mo., Oct. 24—A combi-  
nation known as the National Lead,  
Zinc, and Spelter company, with a capi-  
talization of \$10,000,000, and a surplus  
of \$500,000, to control and work large  
interests in the Joplin-Galena district,  
has been formed.

As a result of the organization lead  
and zinc stocks will be listed on the  
stock exchanges of New York, Boston  
and Chicago.

The Joplin-Galena district produces  
about seven-eighths of the zinc ore of the  
United States and about one-fourth of  
the world's supply. This limited field,  
covering a space of only twenty by sixty  
miles, will this year produce \$16,000,000  
worth of ore.

Seattle, Wash., Oct. 24.—The fourth day of the twenty-fifth annual convention of the National W. C. T. U., being held in this city, opened with board and committee meetings, which occupied the forenoon. The national president, Mrs. Lillian M. N. The purity branch continued its conference, with Assistant Superintendent Mabel L. Conklin of Brooklyn, N. Y., in the chair.

During the afternoon Mrs. Ada W. Unruh of McMinnville, Ore., addressed an audience composed largely of the teachers of the city schools on "How to Prevent the Spread of Immorality in the Public Schools."

The convention proper resumed its sessions at 2 o'clock, and after prayer by Mrs. B. Sturtevant Peet, president of the California W. C. T. U., Mrs. Elizabeth B. Cook of Illinois presented the report of the Frances E. Willard National Temperance hospital, followed by reports of the work of the Woman's Temperance Publishing association by Mrs. Hannah J. Bailey of Maine, president, and Mrs. Caroline A. Grow of Illinois, business manager.

Mrs. Clara C. Chapin of Illinois, editor of the Union Signal, also rendered a report. Reports of the schools of methods and parliamentary usage and of the department of the press were rendered by their national superintendents, Mrs. A. S. Benjamin of Michigan and Mrs. Minnie Barker Horning of Illinois, respectively. Mrs. Carrie Chapman Catt of New York, chairman of the organization committee of the National Suffrage association, presented a resolution endorsing the position of that organization. The matter was referred to the executive committee and on their recommendation rejected unanimously as being outside the work.

Mrs. Stella B. Irvine of Minnesota, secretary of Sunday school work, awarded banners for progress in this branch. Ohio took the lead and northern California, New Jersey and Illinois followed in the order named.

## To Settle Samoan Question.

Washington, Oct. 24.—Negotiations for the settlement of the Samoan question have progressed to such an extent that the basis of adjudication seems reduced to two possibilities. The first is a partition of the Samoan group. The second is a purchase of the group, the two withdrawing nations to be indemnified. These negotiations are being conducted in London. Consequently no significance attaches to the frequent visits of British and German diplomatic representatives to the state department. These visits are made for the purpose of exchanging news and gossip.

## Mrs. Fisk Re-Elected President.

Pittsburg, Oct. 24.—Resolutions were adopted at Monday's session of the Woman's Home Missionary Society of the Methodist Episcopal church commending Secretary Long for his recent official decision forbidding the sale of strong drink in the navy and requesting President McKinley to give his sanction to the enforcement of the anti-canteen law.

Mrs. Clinton B. Fisk of New York was re-elected president.

## Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

## THIS DAY IN HISTORY.

997—Hugh Capet, founder of the line of kings which ended with Louis XVIII, died.  
1537—Jane Seymour, wife of Henry VIII and mother of Edward VI, died.  
1601—Tycho Brahe, famous astronomer, died at Prague.  
1648—The peace of Westphalia ended the dreadful Thirty Years' war.  
1820—Florida ceded to the United States by Spain.  
1822—Daniel Webster, American orator and statesman, died at Marshfield, Mass.; born 1782.  
1854—Affair at Balaklava, in the Crimea, made famous by the charge of the light brigade. The brigade lost 113 killed and 134 wounded out of 673 effectives. The proportion of killed to wounded shows the desperate nature of the fighting. Only 15 un wounded Britons fell into the hands of the Russians, and this was due to the loss of their horses.  
1893—Rear Admiral Walter W. Queen, U. S. N., retired, died in Washington, born 1824.  
1897—Professor Francis Turner Paigrove of Oxford university died, aged 73.  
1898—Porto Rico evacuated, and the last Spanish troops on the island sailed for Spain.

## GAIN FOR WORKING MEN

That prosperity has returned to the working man is beyond question, and wages have been increased, on an average, to the amount of 15 per cent. This statement is made by Frank J. Weber of Milwaukee, general organizer of the American Federation of Labor, in his report to the head officers of the Federation. Mr. Weber says:

"I estimated that the average advance in wages in Wisconsin for all classes in the year past was 15 per cent. Some of the largest advances were made in Milwaukee by the brewers.

"There were twenty-two strikes in the state, of which eight were won without any concessions by the men, thirteen were settled by arbitration, with concessions on both sides, and one, the coopers' strike in this city, remained unsettled. The strikes won were those of the longshoremen and stevedores of Marquette, the longshoremen of Green Bay, the street laborers of the Superiors, the trunkworkers of Oaklath, the laborers on the suburban electric road out of Oaklath, the carpenters of South Milwaukee, railroad laborers on the Wisconsin Central road at Chippewa Falls.

"There was a marked difference in the character of the men conducting the strikes last year as compared with those of previous years. It is no longer the old-time union man who goes on a strike, but the man who has organized spontaneously for the special purpose, or those who but recently formed an organization, and expected more advantageous conditions would immediately follow because they had banded together. The larger, stronger and older unions are much more conservative than formerly, and they resort to voluntary arbitration with their employers wherever possible. The general tendency is towards a friendly discussion of differences by employer and employees. My report showed that there were 218 unions in the state."

In all walks of life the change for the better has been felt, and the people have cause for congratulation that the wolf no longer lingers near the door. The lesson taught is plain.

## CORCORAN IS A CORKER

The Milwaukee News thinks the republican papers are "seeking consolation" on the expansion question, and says The Gazette finds it "in Alderman Con. Corcoran's bold stand for grab and hold." "The Janesville Gazette, one of the leading republican papers of the state, commends the stand taken by the alderman of the Third, thusly:"

Con. Corcoran, the democratic president of the Milwaukee common council, is an out-and-out expansionist, and hurrahs for the American flag. Con. is all right. In fact, he's a corker."

The News quotes us correctly. We said Corcoran was a corker, and we stand by the assertion. He's a corker, and no mistake, "in name as well as in nature."

News dispatches say that the natives employed as scouts in the Philippines have done such good work that Gen. Lawton has been permitted to organize two companies. Edward Atkinson should profit by the example set him by the "loyal expansionist." If the Filipinos are in favor of upholding the American flag, what excuse can an American give for opposing the idea "on the ground of humanity" etc.

For the benefit of several persons the Gazette will again announce that we pay no attention to anonymous communications of any nature whatsoever. Sign your name or save your stamps. Your name will not be used unless you wish, but we must know the authorship of everything we publish. Otherwise it goes into the waste basket without ceremony.

Perhaps the idea was not wholly to discountenance Sunday papers in general, but rather to discountenance some one Sunday paper in particular. This is mere speculation, however, but at any rate there were people who thought that "the coast fit."

No censorship has been in force in Manila since September 9, but we note no improvement in the character of the dispatches sent from that city by the highbrowed young patriots who signed the recent "round robin."

A Georgia cotton mill company declared a dividend of 93 per cent on its business for the past year. Prosperity has reached the Georgia people, and no mistake.

Dispatches say that "the strike of the ironworkers at St. Paul, Minn., is practically ended." This being the case

we feel certain that the strikers have quit striking only to begin pounding.

Another operation has been performed upon the Czar. A surgeon, not a dynamiter, did the business this time, however.

It is seldom, however, that Yale gets a chance to play "practice games" of that character.

The brick trust naturally enough, was organized on Wall street.

## STYLE IN FURNISHING.

Old English Ideas—Red the Great Color, and Velvet in Vogue.

Red, running through the gamut of its rich dyes, from Morris scarlet to the deepest mulberry, is the favorite color in house decoration this season. The steadily increasing popularity of mahogany in simple colonial forms has brought this color into fashion, and after long dalliance with French styles and a momentary fancy for delft blues, a lavish use of gliding and white paint the whole inclination of interior ornamentation is toward the older, darker and severer English modes. Nothing is more fashionable, for instance, than a library, a hall or even an entire first floor wholly decorated and furnished after the best Jacobean models left in England, Ireland and Scotland, and it is like nothing seen before in American homes.

The effect of the Jacobean room is, in spite of its absence of mirrors, gilt and loose bric-a-brac, wonderfully rich, stately and cozy, and in those houses where no liberal expenditure could be indulged, the decorators have pursued the King James style with wonderful cheapness and success. They copy the quaint furniture forms in carved black American walnut or use an oak to which art has given the worn, dusky tone of great age. Burlap is laid on walls and painted murrey red, and walnut is used for woodwork or door facings, etc., painted black. Where in any room this early sixteenth century idea of decoration is followed the bric-a-brac is carefully boarded up in open fronted cupboards or shallow presses with half glass doors, and the very newest idea in dining rooms is a great plate sideboard.

When a dinner party is given nowadays, it is in order for the hostess to put on view all her beautiful plate, gold and silver, not so much for actual table use as for display and the ornamentation of her dining room. For this purpose Jacobean plate boys, in black carved oak, with shelves rising nearly to the ceiling, are being especially built and so placed in handsome dining rooms that the light from a many branched candelabrum can fall effectively on tiers of silver. Other plate boys are built of any simple wood and then entirely covered in ruby red velvet, against which the plate shows as effectively and certainly at much less expense than on the lofty oak shelves.

Sang de boeuf, or bull's blood red, is the approved tint in which the drawing rooms are being done over, and the decorators say that it is the most becoming background possible for women of all colorings, and especially when they are in evening dress. It appears that in drawing room decoration, as in the feminine wardrobe, fabrics go in and out of fashion about every five years, and now, after the brocades and damasks of the French influence, velvet has come to its own again. It is used as a wall hanging, for portieres and curtains, not draped, but hanging straight, arras fashion.

Venetian, Utrecht and Flanders velvets are the kluds employed for hangings and upholstery, and just now, no matter if your hall is colonial, your library Jacobean and your dining room of another period, your drawing room must not be in any particular cut and dried fashion. One of its most important features is its chairs, that can be chosen from every period in history if you choose, provided they are all graceful and ornamental, says the New York Sun, which is authority for these items of style in furniture.

## Watermelon Rind Pickle.

A delicious pickle may be made with the white part of the watermelon rind. Cut the green rind off as thin as possible, scrape off the soft part and cut the pieces into finger strips. Wash and put them in a preserving kettle. Dissolve an ounce of alum in one gallon of hot water and pour it over the rinds. Let them stand on the back part of the stove half a day, and let them then lie in clear water until they are cold. Boil together one quart of vinegar with two and a half pounds of brown sugar. Skim and then add one ounce of stick cinnamon, half an ounce of whole cloves and the prepared rinds which have been drained and cook half an hour. Put into jars and cover.

Mr. Rockington—Well, that is something that I hardly want to answer off-hand.

Mr. Wellington—I'm glad of that. Now, if I could be sure that you would not answer with your foot I would feel free to go ahead.—Chicago Daily News.

## COWBOYS EAGER TO FIGHT.

Clash with Mexican Troops on Arizona Border Is Inevitable.

El Paso, Texas, Oct. 24.—Serious trouble is impending at Naco, Ariz., on the Mexican border, and it is believed bloodshed will be prevented only by a miracle. From all portions of Arizona armed cowboys are arriving at Naco, and fully 200 of them are assembled, making a force equal to any 1,000 men that Mexico can place in the field to oppose them. They boldly threaten to raid the Mexican side of the border and release their companions, Joe Rhodes and George Martz, who were captured by the grensers in Sunday's fight, and, barring interference by the civil authorities of Arizona or the United States government, it is hard to understand how the raid will be prevented, for the cowboys are in dead earnest.

Anticipating trouble, the Mexican authorities have heavily re-enforced the ordinarily weak garrison at Naco by adding 200 rurales, fifty cordados and a horde of civil guards. Besides that, Col. Kosterlitzky and Gen. Fenochio, with their forces, have been ordered to abandon the Yaqui campaign and proceed with all possible dispatch to Naco. Their forces number 2,000. The situation is critical and the law-abiding citizens of that locality express fears of an invasion, and are extremely anxious that a detachment of United States troops be ordered to the scene of the disturbance without delay.

## Girls in a Riot.

Des Moines, Iowa, Oct. 24.—Sheriff Stout and twenty-five deputies brought sixty-seven of the ringleaders in a girls' riot at the Mitchell reform school here last night and lodged them in the county jail. By this means the backbone of a rebellion at the reformatory has been broken, and the officials of the reform school are once more able to secure a semblance of order after forty-eight hours of rioting and destruction of property. The revolt is by far the worst that has ever occurred in an Iowa institution. More than \$1,000 worth of furniture has been destroyed and twenty or more of the worst girls in the school are at large.

## Notre Dame Shuts Out Indiana.

Notre Dame, Ind., Oct. 24.—Notre Dame defeated Indiana Monday by a score of 17 to 0. The Indiana team had been feared by the local coaches, owing to the fact that it had shut Illinois out a week ago, as well as because of the weight and experience of the Indiana linemen. The game was the most important contest, so far as Notre Dame is concerned, that will be played on the home grounds this year, as well as the first of the contests to decide the supremacy of the state.

## SIX OF THE REBELS KILLED.

Shortage of Provisions Is Causing Annoyance to Gen. Lawton's Force—Will Soon Become a Serious Problem—Iowa Troops Land.

San Isidro, Oct. 24 (via Manila).—Lieut. Ferguson, who at the head of twenty mounted scouts had been reconnoitering in the vicinity of Santa Rosa, was returning to Gen. Lawton's headquarters when his party came upon a party of mounted Filipinos. The American scouts killed six of the rebel cavalry and captured eight and a number of rifles. The Filipinos could not manage their horses.

Lieut. Ferguson reported to Gen. Lawton that he had discovered the enemy only in small force between San Isidro and Santa Rosa. At the latter village a few rebels are entrenched. The bridge at Santa Rosa has been burned and it will take the Americans several days to repair it.

Ever since last Friday Gen. Lawton has been supervising the effort to get subsistence and ammunition up the Rio Grande to San Isidro. The water is too shallow to allow the launches in which the provisions are loaded to reach the town, and the number of wagons and teams is extremely limited. The supplies are still four miles down the river, and it is becoming a serious problem how to take care of the troops.

It is reported that twenty or more American prisoners were moved from San Isidro the day the Americans took possession. The men were taken north by the rebels and are supposed to be hidden in the mountains.

## Fighting at Calamba.

Manila, Oct. 24.—The Insurgents around Calamba and Angeles have bothered the Americans lately with their repeated attacks, like most of the Filipino attacks, consisting of shooting a lot of ammunition into their opponents' camp from long range. Major Cheatham's battalion of the Thirty-seventh infantry, three companies of the Twenty-first infantry, a battery of the Fifth artillery, and a Gatling gun sallied out Monday morning from Calamba, drove the Filipinos from their trenches, pursued them for three miles, inflicting heavy loss on them. One American was killed and three were wounded of the Twenty-first infantry.

## Aim to Crush Aguinaldo.

Washington, Oct. 24.—Army officials predict that within the next two weeks there will be movements in the Philippines clearly indicating the plan of campaign against Aguinaldo, which is said to involve surrounding him with at least three separate commands. It is believed that the climatic conditions will be such as to justify a combined movement within the next thirty days, and before that time the disposition of troops will be such as to hem in the insurgents.

## Iowa Troops Are Landed.

San Francisco, Oct. 24.—Iowa's fighting volunteers, who arrived from the Philippines yesterday, set foot upon American soil Monday forenoon for the first time in nearly twelve months. They disembarked forty-nine officers and 746 men, the force forming what many persons remarked was the most healthy-looking lot of soldiers yet brought back from Manila, not excepting the Pennsylvania and Colorado regiments.

## Dispatches from Gen. Otis.

Washington, Oct. 24.—Three dispatches were received from Gen. Otis at the war department Monday. One confirms the death of Capt. Guy Howard, who was killed near Arayat by concealed insurgents. Another informs the department of the last Filipino peace overture, and the third the departure of vessels from Manila.

## Convict's Confession Is True.

Oswatimie, Kan., Oct. 24.—The confession of J. C. McBride, the Stillwater, Minn., convict, of a postoffice robbery and murder committed here, has been verified. The marshal who was shot by McBride was doubtless James Helms, who was killed Jan. 22, 1895. The identity of the murderers had never been known.

## Recipe for Making Bread.

This is a new recipe. Kindly give it a trial as we know good results will follow. Set your bread to rise in the morning and follow these rules closely.

To one (1) quart of lukewarm (not hot) wetting (composed of equal portions of water and sweet milk, or water alone), add two (2) half ounce cakes (1 oz.) of Compressed yeast and stir until completely dissolved, then add (1) teaspoonful of salt and three (3) tablespoonfuls of sugar. When salt and sugar are thoroughly dissolved, stir in well sifted flour with a wooden spoon until a dough is formed sufficiently stiff to be turned from the mixing bowl to the moulding board in a mass. (The quantity of flour used to above wetting should be about three (3) quarts, to this flour may be added, with excellent results, about two (2) tablespoonfuls lard, if shortening is desired.) Knead this dough, adding if necessary, a little flour, from time to time until it becomes smooth and elastic and ceases to stick to the fingers or mouldboard. Then put it into a well-greased earthen bowl, brush lightly with melted butter or drippings, cover with a bread towel or blanket and set to rise in a warm place for two (2) hours, or until light. As soon as light, knead well and again place in earthen bowl, covering as before, and set for another rising of an hour, or until light. As soon as light, form gently into loaves or rolls, place in greased bread or roll pans, brush with melted butter or drippings, cover again with the towel or blanket and let stand for one and one-half (1½) hours, and then bake.

## MAJESTIC Malleable Iron Ranges.

Yes, they're different from anything ever sold in this market. Better, too--a whole lot better.

Their first cost is little more than the old-fashioned cast iron or so-called "steel" ranges, but there's a difference, a vast difference.

The second cost of a cast iron cooking apparatus is often many times its first cost.

Benton Harbor, Mich., Oct. 24.—For two weeks a strange disease has been baffling the doctors of this city. ### Crisis Is at Hand.

Minneapolis, Minn., Oct. 24.—The tension between the Great Northern and its employees has almost reached the snapping point. The grievance committees, which have been in session in the Twin Cities for ten days, met again Monday, and it is understood they formulated an ultimatum. The bonding system and the use of spotters are the two main points of grievance.
